## How to manually add a URL to Moodle

It's recommended that staff use 'Add an activity or resource > Panopto' to add Panopto content to Moodle. This approach ensures that only students enrolled on the module can access your video, as well as unlocking features such as Bookmarks and Notes. However, there may be situations where manually adding Panopto links to Moodle is preferred:

1) Open Moodle (Google Chrome is best), find the relevant module, and then **Turn** editing on (top right-hand corner).

2) Find the place in the module where you want to place the video.

3) Click on the 'Add an activity or resource' button.

+ Add an activity or resource

4) Select the 'URL' option

5)	Give your Panopto	video-link a Name	and an optional	Description
----	-------------------	-------------------	-----------------	-------------

Name	0	Link to Panopto video
External URL	0
