Information to candidates for PGCE Secondary Physical Education

Interviews will take place virtually through TEAMS and candidates will need to be available for either the morning or afternoon of their interview day.

Candidates are expected to dress formally for the interview. Cameras will be required to be on and it is requested that candidates are able to be in a quiet room un-interrupted for the duration of the interview process.

All candidates will undertake:

- A 2-minute presentation about themselves and what has influenced them to apply for a PGCE in PE. This should take the form of no more than 2 PowerPoint slides that include just pictures/images.
- A group interview which will consist of a 20-minute discussion on the given interview question based on research around the area and personal experience;
- A 10-minute individual interview for the Candidates to answer questions posed by the panel.

Interview question

Question:

Given our present situation in schools with regards to PE and the impact of Covid-19, is there an opportunity to look at a more focused health-based approach? Particularly in relation to health and well-being (HWB) as an area of learning and experience in Curriculum for Wales 2022.

Areas you might want to considered looking at to support your answer

- **Successful future** - the 4 core purposes and guidance for the content of the Health and Wellbeing AoLE.
- **Physical Literacy** as an underpinning concepts for High Quality PE provisions and lifelong physical activity.
- **Health Based PE** - as a module of pedagogical practice
- **Motivations and Inclusion in PE**

You are allowed to have an opinion. However, please use literature and research studies to help support the points you wish to make.

Fiona Heath-Diffey

Programme Leader PGCE Secondary PE
