

## GCSE Science Equivalency Revision

Any materials that connect to the current WJEC Double Award Science qualification will be useful to you for revision. Remember that this equivalency programme only covers Units 1, 2 and 3 of the WJEC course, not the full six modules of double award GCSE.

Here are some suggestions for revision:

**BBC Bitesize.** Good revision materials and test quizzes

### Biology

<https://www.bbc.co.uk/bitesize/examspecs/zsw7frd>

All topics in the Cells, Organ Systems and Ecosystems section

### Chemistry

<https://www.bbc.co.uk/bitesize/examspecs/z6pvkmn>

All topics in the Unit 1 section **except limestone**

### Physics

<https://www.bbc.co.uk/bitesize/examspecs/z83k6fr>

The **first five topics** of the Electricity, Energy and waves section – as far as ‘features of waves’

## WJEC website

Useful revision resources [HERE](#), choose the ones you need.

Past papers and mark schemes [HERE](#), for Units 1, 2 and 3. Remember to choose the higher tier papers.

Hardcopy revision guides are also available for the WJEC course. Again, remember to only cover units 1, 2 and 3 in a guide for double award science. The WJEC revision guide is available [HERE](#) and CGP offer a useful guide [HERE](#).

Good luck!
