1. Welcome from your Teaching Team

A very big welcome to Cardiff Metropolitan University (Cardiff Met) and the Cardiff School of Technologies (CST). We are so pleased that you have chosen to spend the next few years studying with us and we are confident that you will have an enjoyable and fulfilling experience.

The whole teaching team are on hand to help you get the most out of your time at Cardiff Met. Please do not hesitate to contact us if you have any questions or concerns in the coming weeks, as you settle into your new life at the University. We would also like to emphasise that everyone at CST and Cardiff Met are taking every possible precaution to ensure that you enter a COVID-19 safe learning environment. We are customising all our teaching and learning methods, resources, and lab spaces to ensure that you can carry out your studies, projects, and learning activities without any hindrances.

As a new student at Cardiff Met you will be assigned a Personal Tutor who will provide support throughout your time here. In addition, your Programme Director (or “PD”) will not only be an additional point of contact for support but will also be responsible for the academic and administrative coordination of the course.

This welcome pack has been written to help you get off the starting blocks and to let you know a little bit about your first week at the University. We have also put together a summer project with few activities which you can engage and attempt at your own pace. We hope that this will give you an insight into the course, as well as inspire and motivate your enthusiasm to succeed as a Business Information Systems student.

During the induction week, you will have the opportunity to meet your lecturers, fellow students and learn more about Cardiff Met and the city. We hope you find the week fulfilling and enjoyable.

We look forward to meeting you soon!

Yours Sincerely,

Catherine Tryfona
ctryfona@cardiffmet.ac.uk

WELCOME FROM THE DEAN OF CARDIFF SCHOOL OF TECHNOLOGIES

It is with great delight that I write to welcome you to this, the start of the next phase of your journey, at an exciting time in the life of this relatively new school at Cardiff Met.

I suspect you may be experiencing a range of feelings. After your years of diligence and dedication to achieving your goals you have now, deservedly, been offered a place at Cardiff Met. You are quite possibly feeling a little trepidation coupled with excitement and maybe even some fear. All these feelings are entirely natural. Be under no illusion that you have both earned and deserve your place at Cardiff Met and you will thrive whilst being a member of the university community. Well done and congratulations for taking this next step!

Within the School of Technologies it is our aim to spend the next few years preparing you for successful careers in a range of sectors based on the skills you will learn with us. In addition to the obvious technical skills and knowledge, and particularly for those of you joining us straight from schools or colleges, we will be developing your talents to enable you to smoothly transition into the workplace upon graduation.

We will help you develop your understanding of the required behaviours in any workplace. To do this we will be drawing on the whole School of Technologies community. Your studies will be complemented with guidance and coaching from the widely experienced staff body and may also draw on the experience of your fellow mature students. These are students undertaking the same programmes but who may have followed careers elsewhere before joining us.

I've mentioned the word community a number of times. You will be joining the School of Technologies community and we want you to look forward to it. The community will comprise people on the same journey, on other technology programmes, postgraduate students and researchers and staff. It is a very close community united in its desire to improve both itself and to provide a safe and secure development environment for all its members. All that is required of you is that you engage and enjoy the opportunity whilst here.

Welcome to the Cardiff School of Technologies community – we look forward to meeting you.

Yours Sincerely,
Jon Platts

BEng MSc PhD CEng FIET MInstMC MINCOSE
Dean of Cardiff School of Technologies
Professor of Autonomous Systems

2. Pre-Entry Summer Tasks

As a University student, you may find that your approach to studying is different to that which you may have experienced before. Unlike your courses in school or college, you will be expected to take responsibility for a considerable amount of your own learning over the coming years. Just like athletes, the staff will act as your coach and mentor, providing moral support and guidance, but it is **you** who will need to put in the work to be successful and to get the most of your time at university.

Below are some suggested activities for you to take a look at before starting your course. These are suggested activities, meaning you don't have to do them, but they will help prepare you for what is to come when you start your course. It is also an opportunity to practice the skills in autonomous learning that will help you get the most out of your time at Cardiff Met. You may engage with these activities at your own pace and you may refer to any additional resources if required.

Activity 1: Learn some basic programming skills

Regardless of whether you will be focusing on computing or engineering subjects, you will be expected to undertake some programming during your studies. You may have already had some experience of programming but please do not worry if not. When you start your course, we will take you from the ground up.

If you are new to programming, take a look at the Codecademy programming courses. These provide structured introductory courses to programming languages. Programming skills and concepts in most languages are transferable and so it doesn't matter too much which programming language you choose, but we recommend Python or Java. If you already have some experience with programming, why not try a new programming language? Just like a spoken language, it's important to practice programming on a regular basis in order to keep up your skills.

- [Codecademy: Python 2](#)
- [Codecademy: Basic Java](#)

There are some fantastic online communities that support developers, including forums like StackOverflow. Take some time to explore these.

Activity 2: Identify Literature and Online Reading

Reading is a vital part of your self-directed learning at University. Not only do employers want graduates to have the practical and technical skills, but they also expect you to leave University with the key academic skills that will make you effective researchers, communicators and critical thinkers.

- Try to identify three online journals/magazines. These do not need to be subscription based.

As you go through University, it is a good idea to create a record of the sources of information that you use, including books, journal articles, websites and videos. Free software such as Mendeley can help us manage these resources and is used by students and professional academics alike. Consider setting up a Mendeley account and add a few of the online journal articles that you have found. Mendeley can be accessed from a mobile app, desktop app or browser, enabling you to access your resources wherever you are.

www.mendeley.com

Activity 3: Robot simulation

Robotics, automation and autonomous technologies are some of the emerging technology trends and some of these elements are embedded within your computing and engineering-based programmes. Use of simulation environments is a great way to try and test your algorithms (set of instructions) and designs before deploying them in actual environments with physical hardware units. In this context, the following robotics simulation environments provide a great environment for you explore some of the robotics models, create and test simple programs and visualise the outcomes. All these platforms come with enriched tutorials, and community support that you can use to get started. RobotoDK allows installation for 30 days for installation purposes.

3. Enrolment / Student MetCard Collection

Enrolment is an important process which confirms your status as a Student.

You can complete the online self-enrolment process from any computer through our Self Service system. Please note that in order to self-enrol; your status must be Unconditional Firm (UF).

You will receive an email notifying you when you are eligible to enrol online. The email will direct you to a password reset facility in order to request a password to be able to login and complete the enrolment process. For information and guidance on this process please make sure you visit our enrolment page – www.cardiffmet.ac.uk/enrolment.

This process is essential in that it will allow you access to your student loan (if applied for), payment of fees, Cardiff Met's IT systems and importantly enable you to obtain your Student MetCard.

You will also receive your Programme Handbook during your Induction Week. The Programme Handbook is a vital manual through the Programme and should be retained for usage throughout your course of study. Each academic year, additional information relating to that level will be provided. The Handbook offers guidance on Rules, Regulations and Procedures; and guidance on learning for practice with information on all modules to be undertaken and reading lists.

Enrolment for International Students from outside the EU

If you are an international student (from outside the EU) you will be required to submit some documentation before receiving approval to enrol online. For more information about international student enrolment and a list of documents you will need to submit, please access the [international student pages](#) or contact the Immigration Compliance Team at immigrationregs@cardiffmet.ac.uk.

Library & Information Services

You will have access to Cardiff Met's Library & Information Services soon after completing your online enrolment. A confirmation email will be sent to you with your Cardiff Met login details. To see the facilities and services available, please refer to www.cardiffmet.ac.uk/library.

Your Student MetCard

Your MetCard gives you access to all main campus buildings and doors. You can also add money to your MetCard to be able to access and pay at the self-service printers, copiers and Print Studio services. For further benefits of MetCard please click [here](#).

Fees

Tuition fees for full-time undergraduate degrees, and full-time Masters programmes for September 2020 entry have been set at £9,000 per year. For further information on tuition fees, please refer to our [Fee Tables](#). If your programme has any additional costs attached to it, they will be listed on www.cardiffmet.ac.uk/additionalcosts. Please make sure you check these to make sure you are aware of any additional costs associated with your course.

Details about fees for international students (from outside the EU) can be found [here](#). You should already be aware of these costs.

4. Induction Week

Induction for all students within the School of Technologies will commence on Monday 28th September 2020. Your first term as a new student starts with Induction Week, where you will settle into your accommodation, course and student life. Your Induction Week timetable is a schedule of events designed to familiarise you with Cardiff Met, its facilities and your fellow students. You will be given the chance to attend a range of events covering your programme, library services, IT, student services and Students Union. You will also meet, and have a number of sessions, with your personal tutor to make your academic transition as smooth as possible.

In line with the programme delivery information below, the Induction week will include activities that are both synchronous (delivered at a scheduled time and led by a member of staff) and asynchronous (activities designed and set by a member of staff but completed in your own time). These activities will largely happen in online/ virtual environment spread throughout the induction week; however, we are also planning activities to run on-campus where government restrictions allow.

Your events and confirmed timetable are currently being finalised and will be uploaded as a separate document on our [New Students](#) pages for you.

For those in Halls of Residence, don't forget to check out the programme offered through the [Residence Life Team](#).

5. Draft Timetable / Typical Attendance

As a first year student, you will have access to your confirmed timetable from Induction Week (w/c 28th September 2020), which is prior to the first week of teaching.

In Term 1, your modules will be delivered in a block, which means you will study one module over a 4 week period with assessments at the end of that period.

Each week you will have approximately 12 hours of contact time:

- 4 hours of delivery in Lecture/Studio;
- 4 hours of delivery in workshops;
- 4 hours of in peer-to-peer support in student huddles.

6. Changes to the Course due to COVID-19

Any updates to your course following the effects of COVID-19, can be found on the following webpage. Please make sure you check this page regularly for any further updates or changes, prior to starting your course;

<https://www.cardiffmet.ac.uk/study/newstudents/Pages/Programme-Updates.aspx>

Some of your induction is likely to be delivered online, sometimes using Microsoft Teams. We recommend that you download the app to your phone, or visit the website in a browser to familiarize yourself with how to use this platform.

If you do not have the facility at home to access this type of platform, or would have any difficulty in doing so, please let us know.

7. Useful links

[Timetable](#)

This link will give you access to your confirmed timetable. You need to have enrolled before you can access this link, and you will be contacted when the information is available.

[Global Engagement](#)

Advice and support for international students from outside the EU on making your visa application, living in the UK, making accommodation arrangements and taking advantage of the Airport Welcome Service. Global Engagement will provide welfare support and learning advice throughout your course. Please also refer to our frequently asked questions -

[http://www.cardiffmet.ac.uk/international/study/Pages/September-2020-FAQs-\(COVID-19\).aspx](http://www.cardiffmet.ac.uk/international/study/Pages/September-2020-FAQs-(COVID-19).aspx)

[Additional Course Costs](#)

Additional costs are the mandatory or optional expenses, additional to tuition fees that need to be paid for by students to fully participate and complete their studies. This covers such things as equipment, trips, placements and DBS checks. Each programme has different additional costs.

[Accommodation](#)

Student residential contracts will start on 28th September 2020. However, due to social distancing and to ensure the health and safety of you and our staff, arrivals for halls will be spread over a number of days the week before. Once you have received and accepted your offer of accommodation please watch out for an e mail letting you know when you will be able to move in. Please note that internet access in halls will only be available for those who have completed the enrolment process successfully. There will be a variety of events held throughout the Induction period and throughout the 1st term, information of which will be sent to you by Accommodation when confirmed

[Student Services](#)

For help during your time with us in relation to your health, welfare, lifestyle and future career. The aim is to provide you with all the support you need to ensure your studies are as enjoyable and successful as possible. Services also include counselling, disability and chaplaincy.

[Student Finance](#)

For information on Tuition Fee Loans and Maintenance Loans, non-repayable grants, bursaries and scholarships that may be available.

[Cardiff Met Sport & Facilities](#)

[Cardiff Met SU](#) including SU Societies, SU Sports Clubs and the ability to access independent advice and support

[Term Dates](#)

[Campus Maps, Bike Shelters & Met Rider](#)

Cardiff Met offers its own bus service called the Met Rider, for more information and to access the application please refer to www.cardiffmet.ac.uk/MetRider. We also have Bicycle Storage shelters on each campus, with changing and showers available. The shelters are secured and are only accessed using your MetCard when you have requested permissions via the i-zone.
