

Pre-Enrolment Summer Tasks: BA-Aviation Management

Before you join us to commence your studies in September, I would like you to undertake a few very straightforward tasks, just to commence the familiarisation process with Cardiff Met and all it has to offer. These won't take long, and they are designed for you to just find out a little more about the institutions with which you'll become very familiar during your time here!

1. Follow some Cardiff Met / Embry-Riddle / Cardiff Airport social media pages:

2. Take a look at the Royal Aeronautical Society website, and then sign up as an affiliate member of the society! It is free to do, and will open up loads of opportunities for networking, news and events – all related to aviation + aerospace.

3. Finally, spend some time looking at all the societies that are available to join on the Cardiff Met Student's Union website – and maybe consider joining one (or more than one!) at the Fresher's Fayre on Wednesday 21st September.
