2. Attend social activities and events on campus.
3. Work on a group project and present findings back to programme team.
4. Get to know the Cardiff Met campuses and surrounding areas.
5. Find out what services we have available to support you on your Cardiff Met journey.

When you turn up for your first day you will meet your Personal Tutor who will provide academic support and guidance during your time of study at Cardiff Met. They will also give you your Cardiff Met student card - as long as you've uploaded your photograph!

Please make sure that you attend the activities planned by your programme during Welcome Week, so you are prepared to start your Cardiff Met journey.

Finally, I hope you enjoy your time studying at Cardiff Met and I look forward to meeting you during Welcome Week.

Yours sincerely,

H Egede

# Essential Information

## Programme Details

The Cardiff Met LLB (Hons) degree combines doctrinal learning with applied skills training. Our degree satisfies the academic stage of professional training for those who want to become solicitors or barristers. For more information on recent changes

made to the professional training for becoming solicitors or barristers, please visit the Solicitors Regulation Authority (SRA) and the Bar Standards Board (BSB) websites. [course details here.](#)

Studying law is an intellectually exciting and stimulating experience; law affects every part of our daily lives and the degree encourages you to develop an inquisitive and critical approach, learn to think rationally, communicate succinctly and be able to construct persuasive and effective arguments.

You will be able to put legal theory to practice in our purpose-built mock courtroom and supported, through student-centred approaches, to develop further your skills in collaboration, effective communication, legal research, and public speaking.

The delivery of our degree is consistent with the Cardiff Met EDGE graduate strategy which assists our students to develop transferable skills in ethicality, digital competence, global perception and entrepreneurship. The EDGE approach brings legal learning to life through a learning environment that demonstrates the 'law in action'. Students will develop transferable skills in a range of 'experiential' 'law lab' activities including client interviewing, letter drafting, mock trials, negotiation, mediation, dispute prevention and resolution, information technology training, digital internships and team collaboration exercises.

Our goal is to get our students to think and behave like lawyers and prepare them to work efficiently and innovatively in a variety of careers. This approach to learning and teaching prepares our graduates for the contemporary work environment that is mainly driven by

technology, globalisation, commercial awareness, sustainability, social engagement and ethical responsibility.

# Welcome Week

## What to expect

During the week you will complete a project, which you will undertake with a group of other new students from your programme, supported by staff and current students who are on your programme. There will also be lots of help from the other university services, showing some great tools and techniques you can use to make your project a success.

At the end of the week, we will also give you some feedback on the strengths of your group's approach, sharing and celebrating what we have discovered together.

There will be an introduction to your new School and Programme and lots of fun activities to help you meet new people.

You will need to complete a bit of administration and check-in with your programme, so we know who is doing what, and when. You will also need to complete any outstanding enrolment matters, pick up Students' Union cards, and touch base with any specialised support services that you need.
