

# WELCOME WEEK TIMETABLE 2021

Dear student,

As Programme Director of the BSc (Hons) Psychology I would like to welcome you to Cardiff Metropolitan University and the School of Sport and Health Sciences.

**Welcome Week starts on Monday 20th September.** Welcome week activities will take place both through a blend of sessions on the University campus and online via Microsoft Teams. The Admissions team will send you all the necessary information on how to access Microsoft Teams.

We recommend that you [download the MS Teams app](#) to your laptop and / or phone before Monday 20<sup>th</sup> September and familiarise yourself with how to use this platform. The [Digital Essentials](#) induction will provide new students with the core digital skills you need to complete your studies, including MS Teams.

Once you've enrolled, visit the [Personal Tutor Portal](#) to find out the name of your personal tutor. You'll be automatically added to the correct Microsoft Team with your personal tutor.

It is important that you join us during Welcome Week, as you will be given important information about studying at Cardiff Metropolitan and your programme. We have put together a series of activities to help you familiarise yourself with the University and services available to support you during your studies, get to know other students on your programme and meet with your Programme Director and Personal Tutor. Your Personal Tutor will support you throughout your Cardiff Metropolitan journey.

**Term 1 starts on Monday 27<sup>th</sup> September.** We have planned for a combination of on-campus and online learning that encapsulates the best of what each mode can deliver, with the on campus activity seen as an essential part of the overall learning experience. We want to ensure that as well as being safe, your face-to-face campus experience will be memorable, meaningful and interactive. Your on-campus learning will be supported by online activities that provide you greater flexibility about where and when you learn, allowing you to fit your studies around your other activities and work. In this we are prioritising the smaller group practicals and seminars on campus that might require specialist equipment, supervision, discussion and collaboration. It is through this carefully designed blended approach, which makes the best of the on-campus and the online, that we will build your learning communities and support an active approach to your learning.

You will receive your personalised timetable during welcome week. Through this timetable we will continue to provide you with an exciting learning experience that enables you to progress through your programme, encouraging you to connect with your peers, to think creatively in solving problems and to identify and seize opportunities for your own development.

I hope you are excited about starting your studies at Cardiff Metropolitan and I very much look forward to meeting you on Monday 20<sup>th</sup> September. Your welcome week timetable is below for you.

Amie-Louise Prior  
Programme Director  
BSc (Hons) Psychology
