How to embed a video on Moodle

TIP: For learning purposes, it is often better to simply give students the link to your video. If you embed a video, it loses its full Panopto ReView capabilities, such as search, speed control and indexing.

1) Find the course that you want to embed the video into and click it.

2) Turn editing on (top right-hand corner).

3) Find the topic that you want to place the video into.

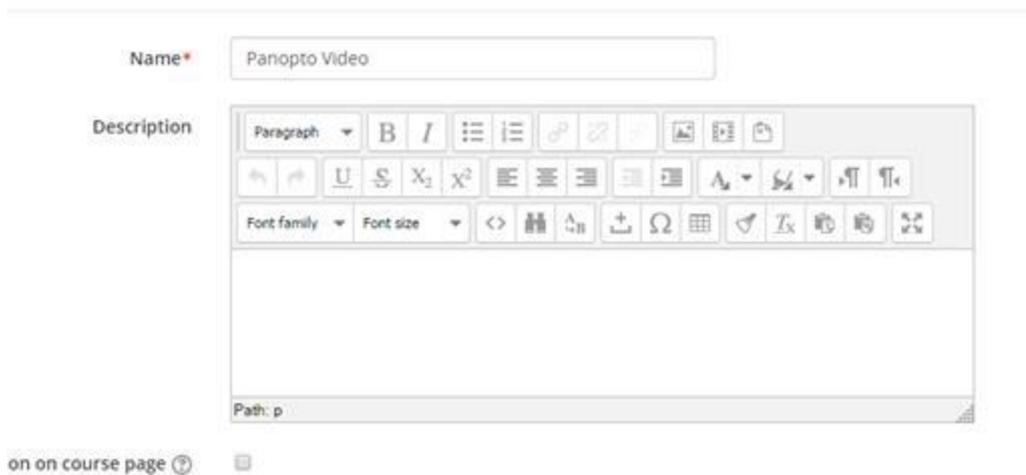

4) Click on the 'Add an activity or resource' button.

5) Choose an appropriate 'Resource' to place the video into – a 'Page' is suitable. Click **Add**.

RESOURCES

- Book
- File
- Folder
- IMS content package
- Label
- Lightbox Gallery
- Page
- URL

6) Give your video a name and description.

Name* Panopto Video

Description

Path: p

on on course page ⑦ ☐

7) Underneath, you'll find the 'Content' page. Click on the embed HTML code button, which looks like two angled brackets **< >**
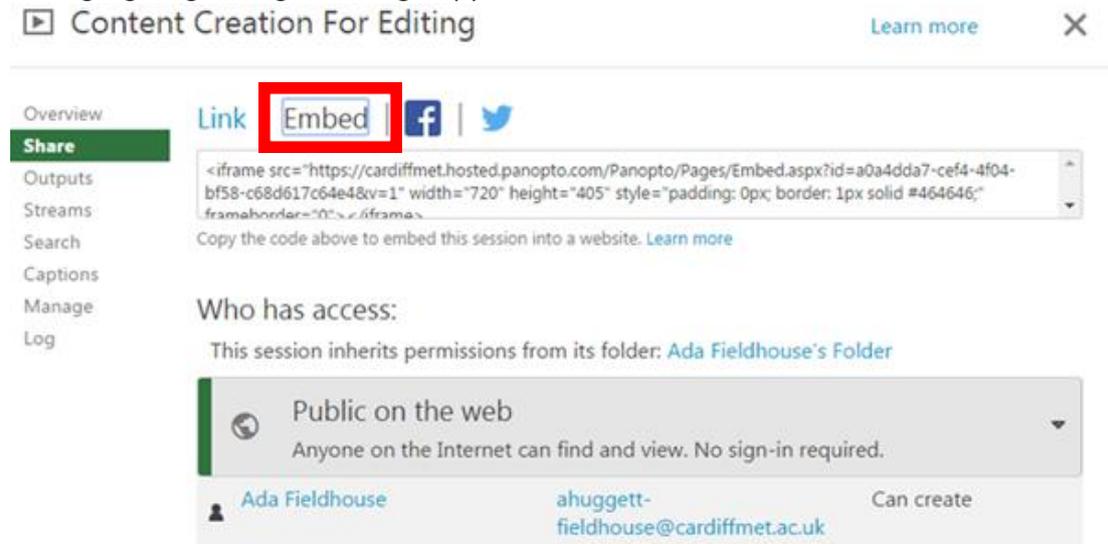

▾ Content

Page content*

Path: p

8) In a separate Browser window/tab, open the Panopto ReView web viewer, and open the appropriate folder. Hover over the relevant video and grey icons will appear. Click 'Share'

9) A pop-up will take you to a 'Share' tab. Click the 'Embed' button at the top of the screen and the URL link will change into HTML embed code. Copy this onto your clipboard by highlighting and right-clicking 'copy'

10) Returning to the Moodle tab, you'll see the HTML source editor has opened. Use CTRL+V to paste the HTML embed code. Click 'Update'.

TIP: Moodle will only allow you to paste by using the keyboard shortcut, CTRL+V and therefore right-clicking will not work.

11) At the bottom of the page, click 'Save and Display' to check that the video has embedded correctly.

Content Creation For Editing

Powered by Panopto

Content Creation

For the YouTube generation

Learning Objectives:
Understand why content creation may be appreciated by many students, particularly Millennials.
Become more aware of how students may access your content and the implications it has for your practice.
Develop skills in creating engaging, purposeful and empowering video content.
