

Our mission is to provide food safety professionals worldwide with a forum to exchange information on protecting the food supply

About UKAFP

- The **UKAFP** is an affiliate of the **International Association for Food Protection (IAFP)** and is in its 20th year
- **Mission: To provide UK food safety professionals with a forum to exchange information on protecting the food supply chain - supporting the IAFP's focus on protecting the global food supply.**
- Within the association, there are educators, government officials, microbiologists, food industry executives and quality control professionals who are involved in all aspects of growing, storing, transporting, processing and preparing all types of foods.

UKAFP Officers

In 2023/24, UKAFP Officers include academics and representatives from universities across the UK in addition to global experts in food safety.

IAFP Report

International Association for Food Protection

We did it! IAFP 2023 had its highest attendance since pre-COVID with more than 3,200 registered attendees taking part in the leading food safety conference — a 7% increase over 2022! Toronto easily absorbed our participants among its nearly three million residents, enticing them over four days — and in many cases, extend their stay — to enjoy the entertainment, food, and spectacular sites. Thank you to our attendees, exhibitors, sponsors, contributors, volunteers, Executive Board Members, and the IAFP staff for the hundreds of hours devoted to bringing the IAFP "family" together again!
